IGN-2872	[LK USER FEEDBACK] Dashboard - Country filter to search by country code or name - Click "Dashboard" - Type in "Country" filter a country code or a country name - The filter displays related results 

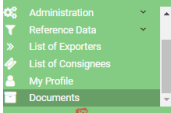

2 Enhancements

Reference	Description
IGN-2027	Upgrade GeNS platform solution with the latest version of Sencha Ext js 7.7.
IGN-2845	Reduce GeNS platform storage by deleting old records from different tables
IGN-2851	Remove the "Scope" filter from "Package type" and "Means of transport" folders.
IGN-2871	[LK USER FEEDBACK] To List the received "Pending Company requests" based on the latest Company Requests not by alphabetical orders. - From the login page, register a new company - Click "Administration", then click "Companies", then "Pending Requests" - You can find the latest registered company request listed on the top of the registration requests. 

	
IGN-2883	To add new Global intend of use as "Research". - Create a Draft certificate - Under "Commodities" tab, Commodity class section, a new intend of use entry added for "Research" purposes. 
IGN-2888	[TG USER FEEDBACK] In the French instances, when registering a new user to rename the Given name to "Nom".

The screenshot shows the ePhyto application interface. On the left is a green sidebar with a menu. The 'Utilisateurs' option is highlighted. The main content area is titled 'Profil de l'utilisateur' and contains several input fields: 'Nom*' (highlighted with a blue box), 'Prénom*', 'Courriel*', 'Adresse', and 'Telephone'. The 'Courriel*' field has a red underline. The ePhyto logo and tagline 'Improving Safe Trade in Plant and Plant Products' are visible at the top left of the sidebar.

3 User Manuals
